In the event that no assurance is given within the time specified after demand is made, the demanding party may treat this failure as an anticipatory repudiation of the Contract.
25. **STOP WORK NOTICE:** The City may issue an immediate Stop Work Notice in the event the Contractor is observed performing in a manner that is in violation of Federal, State, or local guidelines, or in a manner that is determined by the City to be unsafe to either life or property. 30. DELAYS:

- A. The City may delay scheduled delivery or other due dates by written notice to the Contractor if the City deems it is in its best interest. If such delay causes an increase in the cost of the work under the Contract, the City and the Contractor shall negotiate an equitable adjustment for costs incurred by the Contractor in the Contract price and execute an amendment to the Contract. The Contractor must assert its right to an adjustment within thirty (30) calendar days from the date of receipt of the notice of delay. Failure to agree on any adjusted price shall be handled under the Dispute Resolution process specified in paragraph 48. However, nothing in this provision shall excuse the Contractor from delaying the delivery as notified.
- B. Neither party shall be liable for any default or delay in the performance of its obligations under this Contract if, while and to the extent such default or delay is caused by acts of God, fire, riots, civil commotion, labor disruptions, sabotage, sovereign conduct, or any other cause beyond the reasonable control of such Party. In the event of default or delay in contract performance due to any of the foregoing causes, then the time for completion of the services will be extended; provided, however, in such an event, a conference will be held within three (3) business days to establish a mutually agreeable period of time reasonably necessary to overcome the effect of such failure to perform.

The Contractor must also forward a Certificate of Insurance to the City whenever a previously identified policy period has expired, or an extension option or hold over period is exercised, as verification of continuing coverage.

- iii. The Contractor shall not commence work until the required insurance is obtained and until such insurance has been reviewed by the City. - iv. The City may request that the Contractor submit certificates of insurance to the City for all subcontractors prior to the subcontractors commencing work on the project.
- v. The Contractor's and all subcontractors' insurance coverage shall be written by companies licensed to do business in the State of Texas at the time the policies are issued and shall be written by companies with A.M. Best ratings of B+VII or better.

- xiii. The insurance coverages specified in Section 0400, Supplemental Purchase Provisions, are required minimums and are not intended to limit the responsibility or liability of the Contractor.

B. Specific Coverage Requirements: Specific insurance requirements are contained in Section 0400, Supplemental Purchase Provisions

35. **RIGHTS TO BID, PROPOSAL AND CONTRACTUAL MATERIAL**: All material submitted by the Contractor to the City shall become property of the City upon receipt. Any portions of such material claimed by the Contractor to be proprietary must be clearly marked as such. Determination of the public nature of the material is subject to the Texas Public Information Act, Chapter 552, Texas Government Code.
36. **NO WARRANTY BY CITY AGAINST INFRINGEMENTS**: The Contractor represents and warrants to the City that: (i) the Contractor shall provide the City good and indefeasible title to the Deliverables and (ii) the Deliverables supplied by the Contractor in accordance with the specifications in the Contract will not infringe, directly or contributorily, any patent, trademark, copyright, trade secret, or any other intellectual property right of any kind of any third party; that no claims have been made by any person or entity with respect to the ownership or operation of the Deliverables and the Contractor does not know of any valid basis for any such claims. The Contractor shall, at its sole expense, defend, indemnify, and hold the City harmless from and against all liability, damages, and costs (including court costs and reasonable fees of attorneys and other professionals) arising out of or resulting from: (i) any claim that the City's exercise anywhere in the world of the rights associated with the City's ownership, and if applicable, license rights, and its use of the Deliverables infringes the intellectual property rights of any third party; or (ii) the Contractor's breach of any of Contractor's representations or warranties stated in this Contract. In the event of any such claim, the City shall have the right to monitor such claim or at its option engage its own separate counsel to act as co-counsel on the City's behalf. Further, Contractor agrees that the City's specifications regarding the Deliverables shall in no way diminish Contractor's warranties or obligations under this paragraph and the City makes no warranty that the production, development, or delivery of such Deliverables will not impact such warranties of Contractor.
37. **CONFIDENTIALITY**: In order to provide the Deliverables to the City, Contractor may require access to certain of the City's and/or its licensors' confidential information (including inventions, employee information, trade secrets, confidential know-how, confidential business information, and other information which the City or its licensors consider confidential) (collectively, "Confidential Information"). Contractor acknowledges and agrees that the Confidential Information is the valuable property of the City and/or its licensors and any unauthorized use, disclosure, dissemination, or other release of the Confidential Information will substantially injure the City and/or its licensors. The Contractor (including its employees, subcontractors, agents, or representatives) agrees that it will maintain the Confidential Information in strict confidence and shall not disclose, disseminate, copy, divulge, recreate, or otherwise use the Confidential Information without the prior written consent of the City or in a manner not expressly permitted under this Agreement, unless the Confidential Information is required to be disclosed by law or an order of any court or other governmental authority with proper jurisdiction, provided the Contractor promptly notifies the City before disclosing such information so as to permit the City reasonable time to seek an appropriate protective order. The Contractor agrees to use protective measures no less stringent than the Contractor uses within its own business to protect its own most valuable information, which protective measures shall under all circumstances be at least reasonable measures to ensure the continued confidentiality of the Confidential Information.

40. **NO CONTINGENT FEES**: The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure the Contract upon any agreement or understanding for commission, percentage, brokerage, or contingent fee, excepting bona fide employees of bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty, the City shall have the right, in addition to any other remedy available, to cancel the Contract without liability and to deduct from any amounts owed to the Contractor, or otherwise recover, the full amount of such commission, percentage, brokerage or contingent fee.
41. **GRATUITIES**: The City may, by written notice to the Contractor, cancel the Contract without liability if it is determined by the City that gratuities were offered or given by the Contractor or any agent or representative of the Contractor to any officer or employee of the City of Austin with a view toward securing the Contract or securing favorable treatment with respect to the awarding or amending or the making of any determinations with respect to the performing of such contract. In the event the Contract is canceled by the City pursuant to this provision, the City shall be entitled, in addition to any other rights and remedies, to recover or withhold the amount of the cost incurred by the Contractor in providing such gratuities.
42. **PROHIBITION AGAINST PERSONAL INTEREST IN CONTRACTS**: No officer, employee, independent consultant, or elected official of the City who is involved in the development, evaluation, or decision-making process of the performance of any solicitation shall have a financial interest, direct or indirect, in the Contract resulting from that solicitation. Any willful violation of this section shall constitute impropriety in office, and any officer or employee guilty thereof shall be subject to disciplinary action up to and including dismissal. Any violation of this provision, with the knowledge, expressed or implied, of the Contractor shall render the Contract voidable by the City.
43. **INDEPENDENT CONTRACTOR**: The Contract shall not be construed as creating an employer/employee relationship, a partnership, or a joint venture. The Contractor's services shall be those of an independent contractor. The Contractor agrees and understands that the Contract does not grant any rights or privileges established for employees of the City.

45. **WAIVER**: No claim or right arising out of a breach of the Contract can be discharged in whole or in part by a waiver or renunciation of the claim or right unless the waiver or renunciation is supported by consideration and is in writing signed by the aggrieved party. No waiver by either the Contractor or the City of any one or more events of default by the other party shall operate as, or be construed to be, a permanent waiver of any rights or obligations under the Contract, or an express or implied acceptance of any other existing or future default or defaults, whether of a similar or different character.
46. **MODIFICATIONS**: The Contract can be modified or amended only by a writing signed by both parties. No pre-printed or similar terms on any the Contractor invoice, order or other document shall have any force or effect to change the terms, covenants, and conditions of the Contract.
47. **INTERPRETATION**: The Contract is intended by the parties as a final, complete and exclusive statement of the terms of their agreement. No course of prior dealing between the parties or course of performance or usage of the trade shall be relevant to supplement or explain any term used in the Contract. 48. **DISPUTE RESOLUTION:**

- A. If a dispute arises out of or relates to the Contract, or the breach thereof, the parties agree to negotiate prior to prosecuting a suit for damages. However, this section does not prohibit the filing of a lawsuit to toll the running of a statute of limitations or to seek injunctive relief. Either party may make a written request for a meeting between representatives of each party within fourteen (14) calendar days after receipt of the request or such later period as agreed by the parties. Each party shall include, at a minimum, one (1) senior level individual with decision-making authority regarding the dispute. The purpose of this and any subsequent meeting is to attempt in good faith to negotiate a resolution of the dispute. If, within thirty (30) calendar days after such meeting, the parties have not succeeded in negotiating a resolution of the dispute, they will proceed directly to mediation as described below. Negotiation may be waived by a written agreement signed by both parties, in which event the parties may proceed directly to mediation as described below.
- B. If the efforts to resolve the dispute through negotiation fail, or the parties waive the negotiation process, the parties may select, within thirty (30) calendar days, a mediator trained in mediation skills to assist with resolution of the dispute. Should they choose this option, the City and the Contractor agree to act in good faith in the selection of the mediator and to give consideration to qualified individuals nominated to act as mediator. Nothing in the Contract prevents the parties from relying on the skills of a person who is trained in the subject matter of the dispute or a contract interpretation expert. If the parties fail to agree on a mediator within thirty (30) calendar days of initiation of the mediation process, the mediator shall be selected by the Travis County Dispute Resolution Center (DRC). The parties agree to participate in mediation in good faith for up to thirty (30) calendar days from the date of the first mediation session. The City and the Contractor will share the mediator's fees equally and the parties will bear their own costs of participation such as fees for any consultants or attorneys they may utilize to represent them or otherwise assist them in the mediation.

49. **JURISDICTION AND VENUE:** The Contract is made under and shall be governed by the laws of the State of Texas, including, when applicable, the Uniform Commercial Code as adopted in Texas, V.T.C.A., Bus. & Comm. Code, Chapter 1, excluding any rule or principle that would refer to and apply the substantive law of another state or jurisdiction. All issues arising from this Contract shall be resolved in the courts of Travis County, Texas and the parties agree to submit to the exclusive personal jurisdiction of such courts. The foregoing, however, shall not be construed or interpreted to limit or restrict the right or ability of the City to seek and secure injunctive relief from any competent authority as contemplated herein.

50. **INVALIDITY:** The invalidity, illegality, or unenforceability of any provision of the Contract shall in no way affect the validity or enforceability of any other portion or provision of the Contract. Any void provision shall be deemed severed from the Contract and the balance of the Contract shall be construed and enforced as if the Contract did not contain the particular portion or provision held to be void. The parties further agree to reform the Contract to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. **ADDENDUM
CITY OF AUSTIN, TEXAS
INVITATION FOR BIDS
FIRE ALARM & FIRE SUPPRESSION SYSTEMS
MAINTENANCE, INSPECTION, TESTING & REPAIR SERVICES**

Solicitation: MMO0124

Addendum No: 1

Date of Addendum: December 11, 2017

This addendum is to incorporate the following changes to the above referenced solicitation:

1. **Questions and Answers.**

- (Q1) **How can a vendor view the bid tab from the most recent contract bid and award cycle for the buildings in the solicitation?**
- (A1) To view the bid tab information for the solicitation that led to the current contract, visit the solicitation data page for IFB-BV 8200 PAX0210 on the City's Vendor Connection website located at: www.austintexas.gov/financeonline/vendor_connection. From there vendors can search by solicitation number to locate the solicitation documents for PAX0210.
- (Q2) **With regard to the suppression systems (fire sprinkler) can the City provide the following information:**
- **Number of Risers in each building including description of system (wet, dry, pre-action, anti-freeze, etc.)**
 - **Number of alarm valves and or sectional control valves in each system**
 - **Number of standpipe systems in each building or garage and type of standpipe (wet or dry)**
- (A2) The Convention Center has 2 main risers, 12 wet risers, 5 dry systems, and approximately 80 alarms and sectional valves. The Palmer Events Center has one main and four risers, a canopy dry system with 3 dry stand pipes in the garage. Each Convention Center garage has two dry stand pipes and one main each.
- (Q3) **Can the City provide more information on fire pumps in any of the buildings?**
- (A3) The City has no fire pumps in any of the buildings included in this Solicitation.
- (Q4) **If fire backflow prevention valves are included as part of the suppression inspection scope, can the City provide the number of fire backflow valves per building. Are any of the fire backflow valves in a pit?**
- (A4) Backflow prevention valves are included as part of the scope of services required for the Contract per the Solicitation's Section 0500, Item 10.3.2.2. The Palmer Events Center and its garage have one each (one being in a pit). The Convention Center has three and each of its garages has one each. The total number of backflow prevention valves included in the scope of work for this Solicitation is seven.
- (Q5) **What is the approximate square footage of each of the buildings / garages?**
- (A5) The Austin Convention Center is approximately 881,000 square feet. The Austin Convention Center's north garage (601 E Fifth Street) is approximately 217,500 square feet. The Austin Convention Center garage at Second Street (201 E Second Street) is approximately 347,500 square feet. The Palmer Events Center is approximately 170,000 square feet. The Palmer Events Center garage is approximately 411,000 square feet.
- (Q6) **Appendix A looks like a points list for only the Convention Center building. Can the City provide a points list or device count for each of the garages, the Convention Center and the Palmer Events Center?**
- (A6) A points list for the garages is not currently available. The points list for the Palmer Events Center is hereby incorporated into the Solicitation as Attachment B and is available on the Solicitation Data Page in Vendor Connection.

- (Q7) **Section 8.6 states "Any device or component not operating as designed shall be repaired or replaced by Contractor at no cost to the City". Is this a requirement of the fire alarm systems AND the suppression systems or just fire alarm?**
- (A7) This section of the Solicitation pertains to service calls. During a service call, "any device or component not operating as designed shall be repaired or replaced by the Contractor at no cost to the City" per the Solicitation's Section 0500, Item 8.6.
- (Q8) **Section 8.6.3 states "On an Emergency Service Call needed immediately, service to be available 24 hours a day, 365 days a year at no additional charge. Contractor shall respond on site to an ESC within a maximum of 60 minutes from the time the initial request was made or as otherwise directed by the Contract Manager". What if a 60 minute on site requirement for emergency service calls may not be possible? Even with an immediately dispatched technician may not arrive to emergency site within 60 minutes due to Austin traffic, location of on-call technicians vs Downtown, etc.**
- (A8) Per the Solicitation's Section 0500; Item 8.6.3: *"Emergency Service Call (Code Red) is defined as a service request needed immediately due to an unforeseen event(s) or a situation which threatens to interfere with the business operations of the City. The service shall be available 24 hours a day, 365 days a year at no additional charge. The Contractor shall respond on site to an emergency service call (Notification) within a maximum of sixty (60) minutes from the time the request was made or as otherwise directed by the Contract Manager."*
- A 60 minute or better response time is the City's expectation "unless otherwise directed by the Contract Manager".
- (Q9) **How many emergency service calls have been requested by the department in the last 12 to 18 months and how many of those calls were the responding vendors held to the 60 minute on site requirement?**
- (A9) Approximately six emergency service calls were made in the past 12 to 18 months under the existing Contract. For each of the emergency service calls, the Contractor was able to have technicians on site in 60 minutes or less.
- (Q10) **Will the monthly service charge cover inspections and all parts and labor on the Fire Alarm system?**
- (A10) Yes, the monthly service charge shall be inclusive of all inspections, parts and labor on the fire alarm systems as described in the Solicitation's Section 0500, Item 10.2.
- (Q11) **Will the monthly service charge cover inspections and parts and labor on the fire backflow valves?**
- (A11) Yes, the monthly service charge shall be inclusive of all inspections, parts and labor on the fire backflow valves as described in the Solicitation's Section 0500, Item 10.3.2.2.
- (Q12) **Will the monthly service charge only cover inspections of the fire sprinkler and kitchen hood systems? Will any repairs or deficiencies fall outside of the monthly service charge and therefore be billable at the hourly repair rate?**
- (A12) The monthly service charge shall be inclusive of repairs or replacements for components not operating as designed, as described in the Solicitation's Section 0500, Item 10.3. If services are required in direct response to acts of God or damage directly caused by City personnel or City facility visitors, the City and the Contractor shall negotiate an equitable adjustment for the costs incurred by the Contractor in the Contract price and execute an amendment to the Contract. The Contractor must assert its right to an adjustment within thirty (30) calendar days from the date of receipt of the notice of delay.
- (Q13) **For the systems that require an all-inclusive monthly service charge (parts, maintenance, inspections, testing, repairs and replacements), are there any scenarios that Contractor services would be billable (i.e. acts of man, acts of God, internal wiring problems like ground faults, etc.)?**
- (A13) If services are required in direct response to acts of God or damage directly caused by City personnel or City facility visitors, the City and the Contractor shall negotiate an equitable adjustment for the costs incurred by the Contractor in the Contract price and execute an amendment to the Contract. The Contractor must assert its right to an adjustment within thirty (30) calendar days from the date of receipt of the notice of delay. The monthly service charge shall be inclusive of system wiring.
- (Q14) **Can the City provide a list of risers and sprinkler system types for the buildings and garages covered in the Scope of Work?**
- (A14) The system types at each location are included in the Solicitation's Section 0500, Item 2.

- (Q15) **Can the City provide a list of or a number of kitchen hood systems at each location and the approximate number of nozzles, links or tanks for each system?**
 (A15) The Austin Convention Center has three Ansell charged hood systems with total of 12 nozzles.
- (Q16) **Out of the five year inspection cycle, in which inspection year are the sprinkler systems and components? Should the inspection cost for these systems be included as part of the monthly service charge?**
 (A16) The systems are currently in year three (3) of the five year inspection cycle. Per the Solicitation's Section 0500, Item 8.2, "All required three (3) year and five (5) year testing and inspections requirements shall be competed at least once within the initial 36 month term of this Contract." The inspection services are included in the monthly services and there shall not be any separate charges for these services.
- (Q17) **Will ACCD provide man-lifts for emergency repair work, if necessary?**
 (A17) The City will only provide man-lifts for an emergency service call or at the Contract Manager's approval.
- (Q18) **Will ACCD provide lifts for scheduled inspections/service work if agreed to in advance with the Contractor and Contract Manager?**
 (A18) No, equipment shall be provided by the Contractor per the Solicitation's Section 0500, Item 4.2.
- (Q19) **Will ACCD provide ladders to reach sectional valve assemblies that require a ladder taller than 8'?**
 (A19) No, equipment shall be provided by the Contractor per the Solicitation's Section 0500, Item 4.2.
- (Q20) **Is there an opportunity to negotiate any terms of the contract?**
 (A20) No, because this solicitation is an Invitation for Bid, all Bids must be evaluated based on like terms and conditions, which means that terms cannot be negotiated.
- (Q21) **Will the Contractor assume all risk for the systems at the beginning of the contract, regardless of the operating conditions or will there be an opportunity for the Contractor to charge the City for repairs to get all systems running without detected deficiencies?**
 (A21) The Contractor shall be responsible for the systems at the beginning of the Contract, with the exception of replacing painted concealed sprinkler head covers at Austin Convention Center.
- (Q22) **When does the Contractor need to provide the City manufacturer statements indicating authorization to service and repair the specific systems?**
 (A22) Per the Solicitation's Section 0500, Item 6.4, "Include with the Offer, or within five (5) business days of the City's request, a signed statement from and on the manufacturer's letterhead that the Contractor is authorized to service, repair, and program the systems listed in this Solicitation. A Contractor may use Subcontractors to provide the required trained technicians for the listed manufacturers."
- (Q23) **How should charges for parts from subcontractors be included on the bid sheet?**
 (A23) All charges for parts and materials that are not included in the monthly services shall be based on a cost plus markup percentage. Offerors shall include as part of their response, the percentage markup to costs on the Solicitation's Bid Sheet, Line Item 11.
- (Q24) **Is the new City Fire Marshall's reporting part of the monthly service charge or are those report charges to be billed separately?**
 (A24) The Contractor shall include all reporting fees in their monthly service charge.
- (Q25) **Does the Scope of Work include both fire prevention backflows and domestic backflows?**
 (A25) The Contractor shall be responsible for the backflows connected with the fire suppression system. Contractor responsibility begins at the flanged inlet of the fire suppression backflow. All piping prior to the inlet to the street is the responsibility of the City. Domestic backflow devices are not included in this scope of work.
- (Q26) **The Solicitation's Scope of Work, Item 8.6 states, "Any device or component not operating as designed shall be repaired or replaced by the Contractor at no cost to the City." Does this apply to all types of systems and components?**
 (A 26) Yes, the Contractor shall bear the cost of repairs and replacements for devices and components not operating as designed. This applies to all systems and components identified in the Solicitation's Section 0500.
- (Q27) **Do any of the systems require antifreeze?**
 (A27) The City does not currently have any systems requiring antifreeze under this agreement.

- (Q28) Can the City provide a list of any known pre-existing conditions on the fire alarm and fire suppression systems? Who is expected to pay for those repairs?
- (A28) One pre-existing condition is painted concealed head covers at the Austin Convention Center. Austin Convention Center staff is currently addressing the issue internally.
- (Q29) The Solicitation's Section 0500, Item 10.3.2.2 states, "All backflow preventer valves and direct piping connections to the back flows not operating as designed shall be repaired or replaced by the Contractor." Does direct piping include piping from the City main connection under the street and across the loading yard to the building or just from the backflow valve to the fire suppression system?
- (A29) The Contractor responsibility begins at the flanged inlet of the fire suppression backflow. All piping prior to the inlet to the street is the City's responsibility. Domestic backflow devices are not included in this agreement.
- (Q30) The Solicitation's Section 0500, Item 8.5 needs more clarification. Under some contracts, vendors may have to provide a fire watch if required by the authority having jurisdiction. This section suggests that if for any reason the fire alarm/sprinkler system becomes inoperable, the vendor is responsible for a fire watch and anything else the Contract Manager requests to return the building to "normal operation." The catastrophic failure of a main component of the fire alarm or fire suppression system 1) May have nothing to do with the vendor's performance under this contract and 2) May not have any feasible action that the vendor can take to return the building to normal operation. Other than asking for a fire watch if required, is this section asking for an insurance policy more than a service commitment?
- (A30) The Contractor shall provide fire watch in event of fire alarm or suppression system inoperability exceeds 24 hours, if requested by the Contract Manager and/or local authorities. To current ACCD staff recollection, this service has not been requested to date at any ACCD facilities. If services are required in direct response to acts of God or damage directly caused by City personnel or City facility visitors, the City and the Contractor shall negotiate an equitable adjustment for the costs incurred by the Contractor in the Contract price and execute an amendment to the Contract. The Contractor must assert its right to an adjustment within thirty (30) calendar days from the date of receipt of the notice of delay.

facility Overview

The Austin Convention Center, a USGBC LEED® Gold EB certified building, is located in the heart of the capital of Texas, one of the most affordable cities in America. The convention center has a convenient downtown location, between the shores of Lady Bird Lake and historic Sixth Street. It has easy access to I-35, with over 7,200 downtown hotel rooms a short distance away.

The facility's expansion has allowed events to expand their conventions, trade shows and expos. It has also brought new conventions and visitors to Austin and its convention center.

Constructed of native Texas materials, from rustic limestone to polished granite, the facility's different facades reflect the architectural diversity of an historic and vibrant city. Most pre-function spaces have generous, attractive views of downtown Austin. The liberal use of windows connects attendees to the community, invites natural light and provides an open, airy experience.

Stretching over six city blocks and 881,400 gross square feet of space, the Center offers 247,052 square feet of column-free exhibit space divisible into five contiguous halls that can accommodate 1,289 10' X 10' booths. The fifth hall offers retractable riser seating for up to 1,500, making it an ideal location for general sessions, sporting events and concerts.

Ballrooms of all sizes are included in our meeting package options. The 40,510 square foot upper level Grand Ballroom on the north side is among the largest in Texas, where more than 3,000 can dine in style. The South Ballroom features a warm, intimate atmosphere and is the ideal setting for meetings, luncheons and dinners for up to 2,000. The Center boasts 54 meeting rooms and show offices that offer over 58,000 square feet and are located on all four levels. They are designed for maximum flexibility and are perfect for any size meeting.

Addendum No: 3

Date of Addendum: December 15, 2017

This addendum is to incorporate the following changes to the above referenced solicitation:

1. Questions and Answers.

(Q1) **Can you confirm the size of man-lift that is required to reach the highest points in the Convention Center and Palmer Events Center?**

(A1) At the Convention Center, the duct detectors in Exhibit Halls 1, 2, and 3 will require a 60 foot lift. A 45 foot lift would be suitable elsewhere.

(Q2) **Per the Solicitation's Addendum 1 and the Solicitation's Section 0500, the Contractor is required to repair at no additional cost to the City both fire alarm and fire sprinkler, backflow valves and kitchen hood systems. Per Addendum 1 the current "preexisting conditions" are limited to painted heads. Please confirm that the currently contracted Vendor will be required to continue repairing any additional fire alarm or suppression system issues until the last day of the current Contract and that there should be no additional "preexisting conditions" for the new Contract's Vendor to inherit.**

(A2) The current Contractor will maintain and repair the systems until the current Contract's expiration date. The Contractor for the new Contract shall be responsible for the systems according to the Solicitation's Section 0500 as part of the monthly maintenance fee starting on the Contract effective date with the exception of the known pre-existing condition mentioned in Addendum 1; painted sprinkler heads. The City does not anticipate any other pre-existing conditions.

The City may request that the Contractor provide services associated with the painted sprinkler heads. If requested by the City, these particular services would fall outside of the monthly service fee and therefore would qualify as a "billable" service.

2. ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.

MEMORANDUM

TO: James Scarboro, Purchasing Officer, Financial Services Department

FROM: Veronica Briseño, Director, Small & Minority Business Resources Department

DATE: January 9, 2018

SUBJECT: Fire Alarm & Fire Suppression Systems, Maintenance, Inspection, Testing & Repair Services – MMO0124, Ace Fire Equipment

The Small & Minority Business Resources Department (SMBR) determined that no goals were appropriate for this project. Even though no goals have been established for this solicitation, per the instructions in the solicitation, if the Bidder/Proposer identifies areas of subcontracting they are instructed to contact SMBR and comply with the City's MBE/WBE Procurement Program.

SMBR has reviewed the No Goals Utilization Plan submitted by Ace Fire Equipment (ACE) for the above referenced project. Based on SMBR's review, Ace did not comply with the MBE/WBE requirements contained in the solicitation; therefore, it has been determined that the No Goals Utilization Plan submitted by Ace is non-compliant.

Ace did not comply with the following sections of Chapter 2-9C of the City Code:

Section 2-9C-21(E):

(E) Where the Bidder/Proposer cannot achieve the *Goals* or Subgoals, its compliance plan shall document its Good Faith Efforts to achieve the *Goals* or Subgoals. SMBR will determine whether the Bidder/Proposer has made such Good Faith Efforts. In making this determination, SMBR will consider, at a minimum, the Bidder/Proposer's efforts to do the following:

(1) Soliciting through at least two reasonable, available, and verifiable means MBEs/WBEs within the SLBP who have the capability to perform the Contract work. The Bidder must solicit this interest within sufficient time to allow the MBEs/WBEs to respond to the Solicitation. The Bidder/Proposer must take appropriate steps to follow up initial Solicitations with interested MBEs/WBEs. The Bidder/Proposer must state a specific and verifiable reason for not contacting each certified Firm with a Significant Local Business Presence. For some Contracts, based on criteria to be determined by SMBR in consultation with the User Department and set forth by rule pursuant to Section 2-9C-6 (Adoption of Rules), SMBR shall make the initial contact with MBEs, WBEs and DBEs, as the case may be, in which case a Bidder/Proposer's efforts under this Subsection (E)(1) shall not be considered.

(2) Providing interested MBEs/WBEs with adequate information about the plans, specifications, and requirements of the Contract, including addenda, in a timely manner to assist them in responding to a Solicitation.

(3)(a) Negotiating in good faith with interested MBEs/WBEs that have submitted Bids to the Bidder/Proposer. A MBE/WBE that has submitted a Bid to a Bidder/Proposer but has not been contacted within five business days of submission of the Bid may contact SMBR to request a meeting with the Bidder/Proposer. SMBR will schedule a meeting between the MBE/WBE and the Bidder/Proposer to facilitate negotiation. If such a meeting does not occur and the MBE/WBE submitting the Bid to the Bidder/Proposer is not selected, the Bidder/Proposer must explain the reason for not selecting the MBE/WBE and provide written documentation supporting the stated reason. Bid shopping is prohibited. Written documentation of negotiation may include the names, addresses, and telephone numbers of MBEs/WBEs that were considered; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why additional agreements could not be reached for MBEs/WBEs to perform the work.

(b) That there may be some additional costs involved in soliciting and using MBEs and WBEs is not a sufficient reason for a Bidder/Proposer's failure to meet the *Goals* and Subgoals, as long as such costs are reasonable.

(4) Publishing notice in a local publication such as a newspaper, trade association publication, or via electronic/social media.

(5) Not rejecting MBEs/WBEs as being unqualified without sound reasons based on a thorough investigation of their capabilities. The MBE's/WBE's standing within its industry, membership in specific groups, organizations, or associations and political or social affiliations (for example union vs. non-union employee status) are not legitimate causes for rejecting or not soliciting Bids to meet the *Goals* and Subgoals.

(6) Making economically feasible portions of the work available to MBE/WBE Subcontractors and suppliers and to select those portions of the work or material needs consistent with the available MBE/WBE Subcontractors and suppliers, so as to facilitate meeting the *Goals* or Subgoals.

(7) The ability or desire of a Bidder/Proposer to perform the work of a Contract with its own organization does not relieve the Bidder/Proposer of the responsibility to make Good Faith Efforts. A Bidder/Proposer who desires to self-perform the work of a Contract must demonstrate Good Faith Efforts unless the *Goals* or Subgoals have been met.

(8) Bidders/Proposers are not required to accept higher quotes in order to meet the *Goals* or Subgoals.

(9) Effectively using the services of Minority Person/Women community organizations; Minority Person/Women Contractors groups; local, state, and federal Minority Person/Women business assistance offices; and other organizations to provide assistance in solicitation and utilization of MBEs, WBEs and/or DBEs.

A review of Ace's No Goals Utilization Plan revealed that Ace did not provide any documentation to substantiate that Good Faith Efforts (GFE) were performed as outlined in 2-9C of the City Ordinance and in the 0900 instructions. Ace indicated on the No Goals Utilization Plan that they intend to use non-certified firms, Simplex/John Controls and Koetter Fire Protection, but failed to submit the required good faith effort documentation. Therefore, Ace is deemed non-compliant.

If you have any questions, please contact me at (512)974-2156.
